Mounting Shelf - 48"W x 18.5"D - Upward Brackets

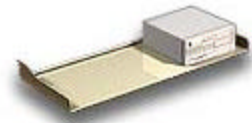

Hergo's Standard Mounting Shelf

P.N. 14-00048-000

Made of [16 Gauge](#) steel, Hergo shelves are the most sturdy - heavy duty on the market.

The Side Brackets can be ordered with mounting position upward or downward.

Each self surface is enhanced by 3 bends, in-front and back. User can reverse shelf orientation from Front to Back. Shelves are shipped with the back bend upward so to secure equipment from falling-of in the back.

Hergo's Shelf Brackets are made of [11 Gauge](#) steel - Clearly the strongest used in the market!

Weight capacity is stated at 350 lb. for each 36" length and when items are equally mounted

Hergo recommended weight capacity is a stated at 30% of the capacity loaded onto the shelves before the Shelf Brackets started showing signs of fatigue.

[We do not recommend loading shelves above the specific stated capacity.](#)
