

Company Overview:

Offering a wide range of ergonomic, modular workspace solutions engineered and designed with the user in mind, Hergo strives to maximize comfort and productivity in any work place. The durable and diverse product components can be configured to meet the requirements of any front or back-office setting ranging from everyday work areas to technical repair stations and high-demand control room operation centers. The Hergo design philosophy is that office furniture should not only be strong and functional, but visually appealing.

Products and Solutions:

Hergo offers an extensive selection of ergonomic furniture systems on GSA contract, including:

- Workbenches for Technical, Office and Industrial Environments
- IT/LAN Server Workstations
- Height Adjustable Desk and Workstations
- Systems Support Furniture: IT, Modular, Computer Consoles
- High-Pressure Laminated Work Surfaces, Side and Modesty Back Panels
- Flat Panel Management Systems
- Accessories: Lighting, Power and Cable Management
