Tilted Shelf - 24"W x 18.5"D

Hergo's Standard Tilted Mounting Shelf

P.N. 14-00124-000

Made of [16 Gauge](#) steel, Hergo Tilted Shelves are the most sturdy - heavy duty on the market. The Side Brackets positioned downward.

Each self surface is enhanced by 3 bends, in-front and back. User can reverse shelf orientation from Front to Back. Shelves are shipped with the front bend upward so to secure equipment from falling-of in the front.

Hergo's Shelf Brackets are made of [11 Gauge](#) steel - Clearly the strongest used in the market!

Weight capacity is stated at 350 lb. for each 36" length and when items are equally mounted

Hergo recommended weight capacity is a stated at 30% of the capacity loaded onto the shelves before the Shelf Brackets started showing signs of fatigue.

[We do not recommend loading shelves above the specific stated capacity.](#)
